

Curriculum Vitae

LÓPEZ RUIZ, Luis Fernando

CURRENT POSITION

Name of company

ADIF (Administrador de Infraestructuras Ferroviarias)

Job position

Business Strategy Director

PROFESSIONAL BACKGROUND

Civil Engineer holding a Master's degree in Civil Engineering from the Technical University of Madrid (UPM) with more than 30 years of experience in the railway sector. He joined RENFE in 1989 and has held several positions in Maintenance and Asset Management since then in RENFE and currently ADIF. Most notably he held the position of Executive Director of Infrastructure Maintenance and therefore, having during that period between 2006-2011 the highest technical responsibility for the Spanish railway infrastructure network. He became later on General Director of Strategic Development and International Affairs.

He has combined his entire professional career in the railway industry with training and also teaching in different universities, including the School of Geology at the UCM (Universidad Complutense de Madrid). Currently, he holds the position of Director of Business Strategy at ADIF, within the Directorate General for Strategic Planning and Projects. Among other activities, he oversees the company's R+D+I activities.
